

Icon	Description
1	Client issues request for a service on the website
2	The service request is routed to the Facility Manager
3	The Facility Manager reviews the request and contacts an artisan to fulfill the service request based on the artisan skills
4	The artisan issues cost for his work which the Facility manager will approve.
5	Once costing is approved the artisan will be deployed to perform the service for the client.
6	After service is complete the Facility Manager issues invoice to the Client.
